

SHE WILL FACE THE CHARGE OF MURDER

MRS. ELLA EGGETT OF CLARK COUNTY ARRESTED.

Capt. Bullard, of Eau Claire, Exonerated Charge That He Used Co. E. Money Proven False—Evanville Workmen Surprised—Other State News.

Neillsville, Wis., Feb. 28.—Sheriff Tufts came here this evening having in custody Mrs. Ella Eggett, whom he arrested in the town of Eaton, in this county, today, on the charge of having murdered her husband, John Eggett, by giving him poison.

A complaint was entered on Saturday last against the woman on the charge of attempting to kill her husband by mingling poison with his food and medicine. Mr. Eggett was then alive and the complaint was signed and sworn to by him, but about 2 o'clock this morning he died and a new warrant was sworn out, charging Mrs. Eggett with murder in the first degree.

It is said that Mr. Eggett was the third husband of the woman, and all of them are dead. She is about 40 years of age and her last husband was about 25 years old. They resided on a farm near the city of Greenwood in this county.

The preliminary examination will be held next Thursday. Little testimony was taken at the coroner's inquest today, but the verdict of the jury was that Mr. Eggett came to his death from the effects of poison.

Evanville Workmen Surprised

Evanville, Wis., Feb. 28.—Saturday, Feb. 25, the employees of the Baker Manufacturing company were treated to a surprise. At 4 p. m. the whistle sounded and the men were assembled in one of the large rooms; after a kindly and sensible speech Allen S. Baker, treasurer and manager, presented to each employee a check representing 10 per cent of the entire wages that each employee has earned in the past twelve months. The amount paid averaged \$50 per man, many who had worked the entire year receiving much more than that sum. The action on the part of the company was entirely unlooked for, but it is needless to say it was greatly appreciated.

Capt. Bullard Exonerated

Eau Claire, Wis., Feb. 28.—Several letters to the editor have appeared in a local paper in regard to a fund raised by citizens for Co. E. when it left Eau Claire for Camp Harvey. One letter, which was anonymous, called for an accounting and said it was understood the money went to the officers. Another letter signed by the two lieutenants said the money went to the captain. Still another letter, signed by Private Wagner, said all the boys in the company would swear the boys never received any benefit from the fund.

This evening the Citizens' committee, consisting of Postmaster Smith, Fitch Gilbert and William Rowe, published a report showing figures as follows: Amount raised, \$1,038; drawn by Capt. Bullard, \$500; paid for telegrams for supplies in Eau Claire for the company and for help to families of soldiers, \$133.69; balance of cash now in bank, \$404.31.

The committee further say that vouchers for the whole are on file and that the money was drawn by Capt. Bullard; was distributed for food, freight and express, burial of Private Eck. The committee add that they hope this report will put a stop to rumors.

KIPLING IS IMPROVING

His Attending Physicians Believe That His Chances for Life Are Much Improved.

New York, Feb. 28.—[Special]—Rudyard Kipling's condition this morning is more encouraging than at any time since his illness took a serious turn. The following bulletin was issued this morning: "Kipling has not lost ground during the night." His condition is still critical, the crises not having been reached, but his physicians now believe that his chances for life are much improved.

New York, Feb. 28.—Rudyard Kipling still lives and hope is entertained that he may yet conquer in his stubborn contest with the death that has seemed imminent for more than two days.

The following bulletin was posted at 5:30 this morning: "Mr. Kipling is at last report holding his own. The advent of a crisis may be delayed, as the inflammation has developed in the upper portion of the lungs, while the part originally affected had nearly resolved.

"The severity of the disease during the last few days has been due to the advance of the inflammation upward while the parts originally affected were not yet available for respiration.

"E. G. JANEWAY,

"THEODORE DUNHAM."

Dr. Dunham gave hope in these words: "Mr. Kipling has been almost too sick a man to take a sudden turn for the better. His improvement will be necessarily slow."

The crisis, he said, would be today. That the poet was reported no nearer death is taken as an encouraging omen by those who are anxiously watching the progress of his illness, and there was many who cherish and believe the sturdy constitution of the writer will withstand the attack of pneumonia in its most deadly form.

SENATE DISPOSED OF MUCH BUSINESS

RECEPTION BY ACTING GOVERNOR AND MRS. STONE.

The Senate Today Killed the Bill Providing For Publication Papers and Addresses Delivered At Semi-Centennial Celebration—Frost Bill Discussed At Length.

Madison, Wis., Feb. 28.—[Special]—The senate disposed of most of the business on its calendar last night, and a short session was held today, during which it killed the bill providing for the publication of papers and addresses read at the semi-centennial celebration.

This evening the members of the legislature will be given a reception at the Park Hotel, by Acting Governor and Mrs. Jesse Stone.

Many petitions came into the assembly this morning, and a number of them asked for the passage of the bill reducing railroad fares to two cents per mile.

The assembly took up the greater part of the morning in discussing the Frost bill, to place the state on a par with ordinary creditors in the case of insolvent banks. Col. Rusk, of Chippewa, opposed it on the grounds that it endangered the trust funds, and Gil. Vandercook, of Marathon, took

a similar position, holding that its passage would rob the people of security for trust funds. Assemblyman Frost upheld his bill, maintaining that it was in a position to demand adequate security and it ought to take equal rank with ordinary depositors. A Child of France.

A touching incident was witnessed at the review of the troops of Remiremont garrison on a Thursday. Toward the end of the display, which, despite a heavy downpour of rain, was carried out with beautiful precision, a boy advanced from the crowd of sightseers, and addressing the officer who bore the colors, asked permission to kiss the sacred emblem. This was accorded, and amid deep and general emotion the little fellow respectfully pressed his lips to the flag and then rejoined his companions, who accorded him an ovation.—Paris Petit Journal.

LESS WORRIED OVER MANILA SITUATION

EVERYTHING IS QUIET AT MANILA.

Admiral Dewey Sends a Request For Coaling Baskets and [The Officials] Take It For Granted That Matters Must Have Eased Up Again.

Manila, Feb. 28.—[Special]—Everything was quiet inside and outside of the city last night. Yesterday afternoon the rebels in a jungle fired on the gunboat Callao at Malabon. Yesterday the Monadnock dropped several shells into the Malabon church, destroying the structure and killing quite a number of rebels. The factory at Malolos is reported to be running day and night to supply ammunition for the insurgents.

Washington, Feb. 28.—[Special]—The administration officials are less worried over the situation at Manila today. Admiral Dewey sent a request this morning for three thousand coaling baskets. The message gave comfort to everybody, indicating that if Dewey's ideas run to coaling baskets, matters must have eased up again.

London, Feb. 28.—[Special]—The Manila Railway company received a cable from Manila saying that the railway has ceased working as a means of conveyance, the Americans having confiscated the line for the purpose of con-

veying troops to Cebu. The railway was not damaged by the recent fires. The Filipino agent in London claims to have received late advices from Iloilo, saying that the British consulate at Iloilo was burned.

These advices further state that the Filipinos in Cebu only retired to the hills at request of the foreign residents to avoid a bombardment of the place by the Americans. Foreigners are promising to intercede in behalf of the Filipinos in view of getting the Filipinos respected.

Washington, Feb. 28.—[Special]—Gen. Otis cabled this morning that a battalion of California volunteers will sail for Negros tomorrow. A battalion of Twenty-third regulars sailed for Cebu on the 26th. He reports everything as being quiet at Manila for the past three days.

report has not been confirmed officially, and for that reason the officials are somewhat inclined to think it may not be true, but there is no doubt that it has raised their hopes of an early adjustment of the present difficulties in the Philippines.

It can be set down as certain, however, that there will be no recognition of the so-called Filipino government. If the insurgent Filipinos want peace they can have it by laying down their arms. They will not be sought out and punished for mere rebellion. They can go about their business and be safe as long as they behave themselves. Known murderers and incendiaries, of course, will be punished, but not the misguided men who have fought openly and fairly in the Filipino ranks.

The fact that Gen. Otis has not called for any more troops in response to the invitation of the secretary of war is accepted by the administration as an evidence of his belief in the ability of the present force at Manila to quell the insurrection. This absence of a request for reinforcements has done much to relieve the anxiety.

The ladies of the Congregational church are making arrangements for a calico carnival to be held March 10. Six Corners.

Six Corners, Northeast Harmony, Feb. 28.—Mrs. Wm. Crandall, who has been a sufferer with pneumonia for over a week, is no better. The disease has developed a serious brain trouble and there seems to be little hope of her recovery. Fred Roloff died Sunday afternoon of pneumonia. His condition was critical from the beginning of his sickness, and Mrs. Roloff being prostrated with the same disease and not able to care for him, made it doubly hard. All that medical skill and care by loving friends and neighbors could do, was without avail. A wife and three young children survive him. Mr. and Mrs. Bishop moved to their Harmony home today with the help of their neighbors. They will be missed at the Corners and all regret to have them leave. During their ten years' residence here they have made many warm friends. To the new neighbor, Mr. Boettcher, who comes here from Johnsons Creek, we extend a cordial welcome and hope he will never have cause to regret having chosen this community as an abiding place for himself and family. Footville.

Footville, Feb. 28.—Our spring weather has suddenly taken on the aspect of winter again. Several inches of snow and the rain Saturday night freezing made the walks and roads rough and slippery. The infant child of Mr. and Mrs. Waldron, who live one mile west of Footville, died Friday of pneumonia. The infant child of Mr. and Mrs. Cater, of this village, died Saturday evening of pneumonia. Mrs. Webb J. Owen is reported as on the sick list. H. Morris, of Chicago, is a guest of I. H. Fisher. The Farmers' Institute Feb. 23 and 24 was poorly attended, except the entertainment Thursday evening, at which there was a full house. All the numbers were rendered and met the unanimous approval of all present. Rock county may well feel proud of her educationists. Don't forget the entertainment to be given by the celebrated Scotch entertainer, Gaven Spence. He is very highly recommended at points where he filled dates during the past few weeks. We will guarantee you will laugh more than you ever did in two hours. Admission, 25 and 15 cents; reserved seats 35 cents. Tickets on sale

at G. D. Silverthorn's after March 1. Mr. Spence appears under the auspices of the Epworth League. He makes his second appearance in Central Music Hall March 10, where admission is 50 and 75 cents and \$1. Green Bros., of Janesville, received tobacco here Monday shipping same to Brooklyn. It is reported that Warren Cane and his father have bought the Schumaker store property, at Canville, taking possession in ninety days. We are sorry to be obliged to chronicle the approaching departure of Miss Fannie Howe, of Footville, who goes to her brother, Hale Howe, of Rough and Ready, California. Mr. Howe has lately lost his wife, and Miss Fannie will care for the motherless children. She is greatly beloved by the people, not alone of this vicinity, but wherever there were sick ones to care for. May she be happy, as she in her unselfishness has made others happy. Mrs. Mark Honeysett, who is spending a few weeks with her friend, Mrs. Lydia Penick, of Footville, is confined to her bed with nervous prostration. Her attending physician, Dr. Lacey, advises perfect rest. Kind friends will do all in their power to hasten her recovery.

Lima Center.

Lima Center, Feb. 28.—George Roe, whose illness was mentioned last week, died at 8 o'clock Sunday evening. A more extended notice will be given next week. We are glad to mention the fact that Miss Emma Child, who has had the grip twice, is able to be up. Her many friends hope for her full recovery. Mrs. Phoebe Jones is able to sit up part of the time. Other sick people are on the gain. Misses Maude Tragner and Laura Janes came home from Whitewater Tuesday and stayed until Thursday morning. Lulu Janes returned with them and remained until Friday evening. Mrs. Frank Walker is a very sick woman. Mrs. Davis Pollock, of Beloit, arrived Monday evening to see her aunt, Mrs. Stetson, who is very ill with pneumonia. T. Richards moves today to his new house, southeast of Whitewater. Miss Cora Doxstader returned to her home in Shopiere Saturday. Mrs. Geo. Charles returned Monday from her visit in Milwaukee. The lecture Friday evening was all that one could wish for and was greatly enjoyed by those present. It was the last of the course. The lectures have been a success both by way of entertainment and financially.

Magnolia.

Magnolia, Feb. 28.—Mr. Harley Worthington intends to return to his home in Nebraska this week. Mr. and Mrs. C. C. Howard are in fashion, they have the grip. Owing to the storm, Saturday, the Mission band did not meet, as appointed. Quite a good crowd turned out Thursday evening to hear the lecture by Professor Wilson. All pronounce it interesting and instructive. A goodly number attended the farmers' institute last week in Evansville. The fair and cooking school were features of extra interest, making it the best that has been held in Evansville. Mr. and Mrs. Anton Cole and daughter, Bulah, spent Sunday with Mrs. Cole's parents, Mr. and Mrs. Gillman Seales, of Evansville. Uncle Otto Nuhn is quite sick with the grip. A great many of the farmers have disposed of their '98 crop of tobacco the past week.

Indian Ford.

Indian Ford, Feb. 28.—Miss Edna Walcott, formerly of this place, but who has lately been living in Illinois, has returned to her home and is living with her grandfather. Harvey Thomas is getting quite spry again though he still uses a crutch. E. M. Rogers has returned from a visit with relatives in Whitewater. W. Price and G. Lackner attended the Burr Oak literary society last Thursday night and judging from their late return, the program must have been extra fine. Miss Allie Alverson has returned to her work in Edgerton, after a couple of weeks spent in taking care of her parents who, we are glad to say, have nearly recovered from their severe attack of the grip. Mr. and Mrs. Meier entertained company from out of town last week. We hear that Mrs. Branks is quite sick.

Barkers' Corners.

Barkers' Corners, Feb. 28.—The Ladies' Aid society will not meet this week as stated in last week's 'jo's'. It has been postponed to next Wednesday, March 8. It will meet with Mrs. Grace Miller. Maurice Holland has twenty feet of water in his well, and still they drill. John Flagler sold a colt last week; the one he bought of Wilbur Cross last fall. Mrs. George Barker has been having a long siege of the grip. The new tenant has moved onto Bert Gage's farm, but we have failed to learn his name. John Hodge, of Huron, S. D., is visiting in this vicinity. The Dutton boys will do custom grinding every Tuesday. Those having feed to grind, will do well to patronize them.

La Prairie.

La Prairie, Feb. 28.—The masquerade at the hall last Friday evening, was a success in every way, weather, crowd and enjoyment. Mrs. George Fein has been very ill for the past week, but is now out of danger. Mrs. Geo. Goodier is not as well as usual. Messrs. Wm. Ruder and Frank Chuffack have gone to Nebraska to visit Mr. Chuffack's mother and Mr. Ruder's sister. It is hoped that the recent storms will be of benefit to the illness all over the country. Lester Van Galder is still very low. Lots of good cooking is going on

in this town, expecting to rank among the first at the Mid-winter fair.

GRANGE ADOPTS RESOLUTIONS

Milton Grange Would Change Laws In Several Cases.

At a recent meeting of Du Lac Grange, No. 72, of Milton Junction, resolutions were adopted by that body and forwarded to their local member of assembly at Madison, in which the author of the resolution condemns most emphatically our present jury system and points out many wrongs in the same that are being perpetrated upon the public and recommends that two-thirds of the members sitting on a jury shall decide such cases as may come before them and that in cities of less than 20,000 inhabitants, a majority of the jury shall be drawn from the country.

Another resolution was adopted by the members, favoring an amendment to the laws in relation to damages claimed for injuries received on the highways of the country, which it is claimed is largely speculative and recommends that the legislature procure such changes in the laws of the state, as shall relieve cities, villages and towns from such litigation.

Still another resolution was adopted, favoring the Torren system of land transfers, which is now in force in Massachusetts, also in the city of Chicago.

LATE NEWS BY TELEGRAPH.

SENATE PASSES ARMY BILL.

Gorman's Amendment Included in the Measure.

VOTE IS 55 YEAS, 13 NAYS.

The Necessity for an Extra Session Thought to Have Been Removed—Army and Fortifications Appropriation Bills Adopted by the House.

Washington, Feb. 28.—The army reorganization bill was passed by the senate at 7 o'clock Monday night by a vote of 55 to 13. Senator Hoar was the only republican voting against the measure.

The amendment of Senator Gorman, providing that all the increases of officers and men authorized by the bill shall terminate July 1, 1901, was adopted by a vote of 68 to 0. This was to some extent a victory for the opponents of the measure, and shows that Senator Hawley, who was in charge of the bill, found that he had to withdraw his determined objections to the Gorman amendment or imperil the passage of the bill.

The acceptance of the bill by the senate and the certainty of its passage in the house in its amended form practically removes the chance of an extra session of congress.

Consideration of the sundry civil appropriation bill was begun at 7:15 p. m. At the conclusion of its reading, at 9:30 p. m., nearly all committee amendments having been agreed to, the bill was laid aside. Announcement was made of the death of Congressman Hurley of New York, and Senators Hurley, Wellington, Smith, Heitfeld and Platt of New York were named as a committee to attend the obsequies. The senate then adjourned.

HARBOR BILL IN DANGER.

Nicaragua Canal Rider Threatens to Crush Out Its Life.

Washington, Feb. 28.—The Nicaragua canal rider threatens to kill the river and harbor bill. The canal measure was added to the river and harbor bill in the senate.

There is every probability that the Nicaragua canal amendment will be defeated, even if it is necessary to kill the entire river and harbor bill to accomplish this result.

Foreseeing this result, Chairman Burton of the committee on rivers and harbors introduced in the house Monday a joint resolution which he will endeavor to have acted on as a separate measure in order to take the canal matter out of the river and harbor bill altogether.

Failing in this, he will endeavor to have it made a substitute for the senate amendment in the bill.

This resolution really proposes nothing more than a further investigation of the merits of the Panama and Nicaraguan routes, and authorizes the president to conduct negotiations with the governments of the countries interested. One million dollars is appropriated to carry out the act. The information obtained or action that may be taken shall be reported to congress at the beginning of the next regular session.

House Passes Army Appropriation.

Washington, Feb. 28.—The house was in session seven hours Monday and sent to the senate two more appropriation bills—those for the army and the fortifications. The former carried about \$79,000,000 and the latter approximately \$4,700,000. The final conference report on the Indian appropriation bill was also adopted. The only amendment of importance attached to the army bill was the one giving two months' extra pay to enlisted men in the regular army who served beyond the limits of the United States during the war with Spain and one month's extra pay to those who served in the United States.

For a Study of Irrigation.

Washington, Feb. 28.—An agreement on the agricultural appropriation bill has been reached by the senate and house conferees. The differences were mainly on amounts for various bureaus, and unimportant. The amount for an investigation of irrigation methods is restricted to \$25,000, and the restriction is omitted, so that it can be used "in the United States and other countries."

Senator Mason Yields.

Washington, Feb. 28.—Senator Mason has decided to withdraw his protest against the confirmation of Judge Christian C. Kohlsaat of Chicago as United States district judge. He will so notify the senate judiciary committee. That committee will promptly report Judge Kohlsaat's nomination with a favorable recommendation and the senate will follow with a confirmation.

For Only Six New War Ships.

Washington, Feb. 28.—The senate naval committee decided to recommend the authorization of only two battleships, two armored cruisers, and two protected cruisers. This is quite a reduction from the house increase. The naval appropriation bill which passed the house authorized the construction of three battleships, three armored cruisers and six protected cruisers.

Chicago Live Stock Market.

Chicago, Feb. 27.—Trade in cattle and sheep had better temper today and some of the more desirable offerings in those branches sold 10c higher than late last week, while the plainer grades of cattle could be sold to no better advantage. Only a few early "scratch" sales of hogs were made as high as Saturday, bulk selling later 5@10c below Saturday's best range. Opening receipts this week are estimated at 13,000 cattle, 37,000 hogs and 14,000 sheep, against 18,640 cattle, 39,449 hogs and 21,411 sheep for the opening day last week and 14,223 cattle, 38,037 hogs and 27,886 sheep one year ago today. Good cattle and most of the sheep and lambs were bought up in good season, but many plain cattle dragged unpleasantly and late trade in hogs was sluggish at the decline.

QUAY TRIAL POSTPONED.

District Attorney Gives No Reason for Asking for Delay.

Philadelphia, Feb. 28.—On motion of District Attorney Rothmel, the Quay conspiracy trial has been postponed until April 10. The district attorney did not state his reason for the motion for the postponement.

Counsel for defendants objects to a postponement and stated to the court that they had summoned witnesses, and gone to considerable trouble to prepare their case and desired immediate trial.

Judge Bettler, however, granted the motion of the district attorney for postponement, and fixed April 10 as the date for the trial.

Senator Quay, on leaving the courtroom, expressed his disappointment at the unexpected deferring of the trial. He declined to discuss the matter further, simply adding that he was extremely anxious to have the case disposed of, and he had hoped that it would have been taken up today and quickly brought to a conclusion.

WORK OF ILLINOIS MINERS.

State Convention at Springfield—Organization in Good Shape.

Springfield, Ill., Feb. 28.—With a gavel made from the stockade at Virden, President John M. Hunter on Monday called to order the tenth annual convention of the United Mine Workers of Illinois. When Mayor Wheeler of Springfield had formally welcomed the convention, National President John Mitchell made a brief speech.

President Hunter, in his annual report, said that the operators of Illinois had come to see the advantage of organized labor, and that those who had fought the union most bitterly were now its strongest champions.

Secretary Ryan, in his report, said the organization was without a dollar one year ago, and now had a balance of \$51,219.49 on hand, and that the officers had handled over \$200,000 in the past year.

The credentials committee's report showed 227 delegates present.

Growth in Hawaiian Revenue.

San Francisco, Cal., Feb. 28.—The custom house figures at Honolulu for the year 1898 have just been compiled. They show a large increase both of exports and imports. The total value of the exports was \$17,348,744, as against \$16,021,775 for 1897. The value of the imports, including specie, was \$11,650,890, as against \$7,882,828 in 1897, an increase of \$3,768,062. Half of this increase was an increase in imports from the United States. The increase in imports from Great Britain and Germany comes next in amount, those from Great Britain being \$421,945, and from Germany \$159,111. The customs duties collected were \$896,975, as against \$708,493 in 1897.

POLICY OF THE DEMOCRATS.

Members of the House Hold a Caucus.

OPPOSED TO EXPANSION.

Colonial Policy Declared to Be Contrary to the Theory of Our Government—Gen. Wheeler Not in Accord with the Resolutions.

Washington, Feb. 28.—At a caucus of the democratic members of the house of representatives, held in the hall of the house Monday night, the following declaration of policy and resolutions as to the Philippines were adopted:

"We hold that the constitution of the United States was ordained and established for an intelligent, liberty-loving and self-governing people, and cannot successfully be applied to a people of different virtues and conditions. We therefore hold that a colonial policy is contrary to the theory of our government and subversive of those principles of civil liberty which we have been taught to cherish. We believe with the declaration of independence that all governments derive their just powers from the consent of the governed, and we are unalterably opposed to the establishment of any government by the United States, without the consent of the people to be governed, and in conformity with these principles we instruct the minority members of the foreign affairs committee to introduce and urge the following resolution:

"Resolved, That the United States hereby disclaim any disposition or intention to exercise permanent sovereignty, jurisdiction or control over the Philippine islands, and assert their determination, when any independent government shall have been erected therein, to transfer to said government upon terms which shall be reasonable and just all rights secured under the cession by Spain and thereupon to leave the government and control of the islands to their people."

Another resolution by Mr. Griggs (Ga.) was adopted, as follows:

"We, the democratic members of the house of representatives, in caucus assembled, commend the signal loyalty and valor of our soldiers and sailors in the performance of every military duty to which they have been assigned by proper authority, however much we may deplore the policy of the administration now directing their movements; and we pledge them our hearty support and sympathy under all circumstances wherever engaged."

Gen. Wheeler opposed the adoption of the first resolution.

Washington, Feb. 28.—The sundry civil bill, as reported to the senate, directs Secretary Cagle to buy enough silver bullion to coin 50,000 Lafayette dollars, which are to be turned over to the Lafayette Monument association. PUNISHING MR. MYERS.

The common council has enacted an ordinance to tax the opera house at the rate of \$150 per year—clearly an exorbitant sum. The license committee recommended that the sum be charged, and all the aldermen voted to adopt the report except Aldermen Gilkey and Fifield. Both of these gentlemen went on record as being in favor of charging the opera house no license whatever. In taking this course, Aldermen Gilkey and Fifield have undoubtedly reflected the sentiment of their constituencies. Janesville men own and manage the opera house; they pay their share of the taxes of the city; and the enterprise is as a legitimate business as any other public institution in Janesville. True, the companies that play here take their share of the money out of town, but is not every business man who buys goods for his store compelled to send his money out of town in order to keep up his stock? It is claimed that the opera house is given "police protection." Is not the city bound to give police protection to every citizen?

Section eleven, of the charter of the city of Janesville, gives the council power to "license, regulate, and restrain all exhibitions of natural or artificial curiosities or animals, all theatrical or other shows, exhibitions, musical entertainments, circuses, and all other exhibitions, amusements and performances for money."

Has the council been fair in this matter? Is it just to use the power given to tax the opera house \$12,50 per month while lectures and "other exhibitions, amusements, and performances for money" are not taxed at all?

The remarks made by Alderman McLean show the animus of this matter. He is quoted thusly:

Alderman McLean said the committee had tried to do business with Mr. Myers, and that he had kicked out and did not act the man. The committee told him not to have anything in the papers about the matter, and that he went straight to the Gazette office and told them what had been done. He saw him, and a Gazette man told him Mr. Myers came there. Alderman McLean said Mr. Myers was making monkeys of the committee.

Manager Myers did not come to the Gazette office and tell what had been done. The writer of this article went to the opera house to see Mr. Myers about another matter, and in the course of the conversation the fact that the committee had asked for passes was mentioned—not as a positive statement, but in a casual way. The statement that the committee had made this request was not made positively by The Gazette in any of its articles, but as Alderman McLean now confirms the statement, it shows that The Gazette had the right idea of what the committee wanted.

The council does not show a good spirit in thus punishing Mr. Myers, and public sentiment will not sustain the action taken.

BAN ON MARRIAGES

A sweeping law to regulate marriages has been passed by the senate of North Dakota. The bill provided for the appointment of a commission of three physicians in each county for the examination of applicants for marriage licenses. No license to marry can be granted under the bill unless applicants present a certificate from the board of examiners that they are free from certain diseases and ailments including disomania, hereditary insanity, and tuberculosis. The examiners are to be appointed by the county judge and are to meet each month at least for the examination of applicants for entrance into the matrimonial state. A fee of \$2.50 is required for the medical examination.

This law is unique, to say the least, but it has some good features. People afflicted with the diseases enumerated should not marry, and if such unions were prevented, we would be a healthier race in a few years. The law will not be popular, and will probably fail of approval.

"We observe," says the New York Sun, "that on the ostrich farm near

Jacksonville, Florida, a very majestic and portentous ostrich has just been named Grover Cleveland." The Sun is several years behind the times. The two pioneer ostriches at the Jacksonville farm, as all well remember, were christened "Grover Cleveland" and "Queen Lil" respectively, in June, 1892.

PROTECTION IN MINNESOTA

A joint committee of the Minnesota legislature has reported in favor of a bounty of 50 cents per ton for all pig iron made in Minnesota for the next ten years. Minnesota finds the reward of labor distributed in that state does not exceed \$1 per ton of iron ore mined, whereas Bessemer pig sells for \$10 per ton, steel rail for \$18, tin plates for \$70. Most of the advance in prices over the cost of the ore in the ground is paid to labor, either in manufacturing or transporting. Now it is proposed that much of the cost of transportation shall be saved to the consumers of the Northwest and the money paid for converting the ore into useful products shall be distributed in Minnesota, where the laborers shall be consumers of the products of Minnesota farms.

It is noticeable that a year from next fall, says The American Economist, the Minnesota farmers will be assured that they are injured by the near market and will be asked to vote for those who will send all manufacturing to England and Germany.

DEWEY FOR MCKINLEY.

Admiral Dewey positively refuses to allow his name to be used in connection with the presidency, saying that he is a sailor, and knows nothing of politics. He insists that he is too old to learn a "new profession," and prefers to serve his country in his present capacity until his usefulness is gone, and then live in peace in his old age. He also authorized his interviewer to state that he preferred that no change in presidents be made. President McKinley may well feel proud of the compliment thus paid him. Admiral Dewey is a man of action, not of words, and when he thus endorses the president he means it as much as he meant it when he said, "Never mind the torpedoes, steam ahead!"

Aldermen Gilkey and Fifield are to be commended for standing up for what they thought to be right in the matter of taxing the opera house, in the face of the fact that all the other aldermen were of a contrary opinion. The man who cannot be "bluffed" may make mistakes, but even his enemies admire his independence, for, as Henry Ward Beecher said, "No craven hearted man was ever fit to be a citizen. Courage is the source of patriotism."

"But," said the plumber, in discussing the most discussed subject of the day, "We can fix that. All we have to do is to use rubber washers in the joint where the connections to the water main is made and then the current will not run along the pipe." So you see the plumber cannot yet be "counted out of it."

Admiral Dewey has done the most fighting and the least talking of any of the brave American officers, and has more reputation than all the others put together. The others should profit by his example. Perhaps it was not possible for them to do more fighting, but they certainly could have talked less.

Alderman McLean twice made the statement, at last night's meeting of the council, in speaking of the matter of taxing the opera house, that "the mayor was tired of newspaper talk." We mention this fact merely because it is "evidence in support" etc. etc.

Alderman McLean should not charge Manager Myers with the feat of "making monkeys of the [license] committee." If the committee is in the state that the alderman says it is, no is to blame except the committee.

Bank of Brides.

Simla, the summer capital of the Indian empire, is a pretty pine-treed place well up in the foothills of the Himalayas. A feature of Simla life is the annual fair held by the native hills people, an attractive item of which is a "Bank of Brides" in an amphitheater, where sit numbers of young women, who thus calmly announce that they are candidates for hymeneal honors. Some of these aspirants to matrimony so patiently awaiting a choosing are quite pretty and have intelligent faces, but those of the Mongol caste must needs linger long for a partner if personal beauty enters into the equation.—Woman's Home Companion.

HOMES IN MANILA.

How People Live in Uncle Sam's Acquired Territory.

The better houses in Manila differ in some ways from any other in the world. Always of two stories, there is a high stone basement, with a carriage way to the court, where are the servants' quarters and domestic offices. The upper story is of wood, being complete in itself, so that in case of an earthquake it will settle together. The ceilings are covered with cloth instead of plaster. A wide stairway leads up from the carriage way. Between three and four feet above the floor of this story is a wide window ledge with grooves running the whole length of every side. In these grooves slide blinds and also frames in which are set small squares of oyster shell (called "concha"). Both blinds and conchas run the full length of each side. Either or both can be closed at the same time, and both can be slid back to the width of one at each end, leaving the whole side open, and allowing the air to circulate as freely as in a shed. The roofs were formerly made of heavy curved tiles. Now galvanized iron is used, as it vastly decreases the chance of the roof falling during an earthquake, and lessens the damage if it does. On the other hand the iron roof is much more likely to be blown off by the terrible typhoons. The native houses are built of bamboo, with thatched roofs made of the leaf of the nipa palm, and elevated from six to ten feet on bamboo poles.

PROPER TIME FOR A BATH.

Some of the General Rules Which Health Dictates.

Regarding the proper time for a bath, a simple general rule may be given, says Woman's Life. Take cold baths on rising in the morning and warm ones just before retiring. In taking Turkish or Russian baths the hour need not be considered, except as in all baths, none of which should be taken less than an hour or so before or after meals. Where it is possible, use fresh, clean rainwater for the bath. This is the nearest approach to distilled water, which is too expensive for general use. Soft water is next best to rainwater, and a little borax or ammonia in hard water will soften it. Brisk rubbing should always follow a bath; then the bath will do all that is claimed for it in the way of renovating the person, invigorating the system, increasing the fineness and softness of the skin and making one look and feel younger. Cleanliness of the skin has a great effect on the general health, and it is well known that if one has been exposed to infection the best thing to do by way of precaution is to take a hot bath immediately. It is a mistake to remain too long in a tepid bath. Thirty minutes should be the limit. Throughout the winter and early spring it is best, if one is at all liable to chills, to take one's bath at night, just before going to bed. If taken in the daytime, brisk exercise of dumbbell practice is highly beneficial.

Oxidized Gold Brooches.

The very latest novelties are brooches in oxidized gold, representing a flower and leaves in the form of a spray, such as an orchid, iris or poppy. They are beautifully modeled, and the leaves are here and there flushed with a dull metallic green, the iris and orchid with faint purple, and the poppy with red, but all are done with the greatest delicacy and moderation.

At a Disadvantage.

"I wonder what made that Indian chief give up and run. It's something unusual with him." "I suppose," answered the man who never acknowledged that he doesn't know, "he has been so used to sneering at the 'pale-faces' that he got rattled when they sent a detachment of colored troops after him."

Ancient English Church Found.

The foundations of an ancient English church have been unearthed at Waverley Abbey, near Farnham, Surrey, as well as the remains of the monks' dormitories, the kitchens and the disciplinary cells. Several old oaken coffins were discovered in a perfect state of preservation, among them that of William Manduit, third Baron of Hanslope, and king's chamberlain, who was buried in 1194.

Not Hasty.

"I am glad to say," remarked Mr. Meekton, "that I never spoke a hasty word to you." "No, Leonidas," answered his wife, rather gently, "I am willing to give you credit for not hurrying about anything."—Washington Star.

The Year 1810 Bore Notables.

The year 1810, in which the late duke of Northumberland was born, seems to have produced a long-lived race, for there still remain four peers who date their birth from it—Lord Tankerville, Lord Gwydyr, Lord Maxborough and Lord Armstrong.

SISTERS WEDDED THIS AFTERNOON

NINETY GUESTS WITNESSED
THE CEREMONY.

Brides and Attendants Wore Beautiful Gowns and the Floral Decorations Were Fully in Keeping With the Occasion—Many Beautiful and Costly Presents—Leave This Evening.

One of the most beautiful and impressive wedding ceremonies ever performed in the city was solemnized at 4:30 this afternoon. It united in hymeneal bonds Miss Marcia Withington to Henry Flower Martyn of London, England, and Miss Georgia Withington to Norman Waite Church of Toledo, Ohio. The brides are sisters and the nuptials were solemnized at the spacious home of the brides' parents, Mr. and Mrs. Chas. B. Withington, 58 South Academy street.

While the ninety or more guest were gathering there was music by the Orpheus mandolin orchestra. At the appointed hour the orchestra took up the bridal chorus from Lohengrin, and the bride appeared. From the hall first entered Rev. S. P. Wilder, pastor of the Congregational church at Delavan, and formerly pastor of the Congregational church of this city. With him was Rev. Robert C. Denison, pastor of the Congregational church. They took their places in the front drawing room and stood before a beautiful canopy of smilax, palms, evergreen and flowers that occupied one corner of the room. They were closely followed by the grooms who took their place beside the clergymen and there awaited the brides.

From the sitting room next entered the four ribbon bearers Frank Sutherland and Albert Bemis leading each carrying white ribbons forming an aisle which was brought up in the rear by Misses Katherine Smith and Lillian Bemis, both of whom were charmingly attired in white organdie.

Through this aisle, the wedding party passed into the drawing room. First came Master Clifford Sherman, of Chicago, a nephew of the brides, acting as ring bearer, carrying the rings on a white satin pillow. He took his place with the grooms and awaited the approaching brides.

Next came the first matron of honor, Mrs. Herman E. Dick, of Chicago, sister to the brides. She was charmingly attired in a Parisian gown of pink satin trimmed with rose petals. She wore a necklace of diamonds and pearls and carried a large cluster of bride's roses.

Gene Jeffris as flower girl, followed carrying a basket of rose petals which she strewed in the path of the approaching bride, Miss Marcia Withington. Miss Withington was attired in a gorgeous gown of white satin with flowing train and with transparent neck and sleeves. Her gown was adorned with a of Brussels lace, and from her head hung in graceful folds, white brides' veiling. She wore a brooch set with chrysoberyl surrounded with pearls and diamonds, a gift from the groom's father in London. In her hands she carried a bouquet of lilies of the valley.

As second matron of honor came Mrs. Guy Sherman, of Chicago, sister to the brides. She wore pink satin, covered with tulle, and trimmed with petals with applique lovers' knots. A beautiful necklace of pearls and diamonds added beauty to her costume. Edith Bowerman made a dainty flower girl, preceding Miss Georgia Withington, who was attired in white satin with flowing train and Brussels lace, and transparent neck and sleeves. From her head flowed folds of white brides' veiling. She wore a diamond brooch, the gift of the groom's father and mother, and carried a bunch of white hyacinths.

The happy couples took their places beneath the canopy and to the soft notes of the "Angel's Serenade" the impressive words of the ring ceremony were repeated. The Rev. S. P. Wilder uniting Miss George Withington and Norman Waite Church and the Rev. Robert C. Denison joining the hands of Miss Marcia Withington and Henry Flower Martyn.

MODERN WOODMEN THEIR NEIGHBORS

ELABORATE BANQUET AT Y. M. C. A. BUILDING.

Last Evening At the East Side Odd Fellows' Hall, Miss Annie S. McLennan, of Beloit, addressed an attentive audience on "English Lyric Poetry."

Last evening the members of Florence Camp, No. 366, M. W. A., of this city, acted as hosts and entertained brethren from Evansville, Edgerton, Shopiere, Johnstown, Magnolia, Afton and Emerald Grove, and to say that the visitors were entertained in a royal manner, is putting it very mild.

After the meeting was called to order, an adjournment was taken to the Y. M. C. A. building, where an elaborate banquet was served in honor of the visiting brethren, the wives and sweethearts of the Woodmen, assisting in serving and seeing that the wants of all were supplied. In the neighborhood of three hundred sat down to the bountiful spread.

After the banquet the local Woodmen and their neighbors in woodcraft returned to their place of meeting. Three new candidates were treated to a fast ride on the goat and shown the mysteries of the order of wood choppers, the members from Evansville having the work in charge. Fully 150 members were present from the neighboring camps and enjoyed an evening that will long be remembered.

News of the Courts.

An inspiring theme was that chosen by Miss Annie S. McLennan for her address to members of the women's clubs of Janesville last evening. She told of "English Lyric Poetry," and dwelt fondly upon the two periods of English literature in which poets have burst and in song with a music so irresistibly enchanting that criticism is lost in delight. Of these periods, represented by Spencer and Shakespear in the seventeenth century, and by Coleridge, Shelley and Tennyson in the nineteenth, she spoke with full appreciation and artistic discrimination. She quoted freely to illustrate her points, and brought out many gems of the Elizabethan age by no means generally known.

Those who heard her were the guests of Mrs. John Winans, who has put Janesville society under obligations by introducing a diversion from the continual round of teas and receptions. At the close of the lecture, those present availed themselves of the opportunity to meet Miss McLennan, and to express their appreciation to her as well as to the hostess.

Beach & Bowers Next

In speaking of Beach & Bowers' minstrels which hold the boards at Myers Grand tomorrow evening, March 1, The Lincoln (Neb.) News said "them the following deserved compliment upon a recent visit to that city."

"At the Lansing last evening the Beach & Bowers' minstrel organization made good the claim of being the monarchs of modern minstrelsy. With the old time features and a good deal of unnecessary tomfoolery eliminated and good fresh fun substituted, they give a performance that keeps the resiliencies of the audience in working order for several hours. All of the vocalists, both pathetic and comic, have good voices and methods, even including the inevitable falsetto tenor, who, by the way, gave a very neat rendition of 'The Little Rag Doll.' Beach & Bowers themselves work as hard as any of them. For the most part noisy methods are avoided and quiet smooth ones substituted that are decidedly effective and convincing. What is called the 'vaudeville olio'—from the equilibrist to the performing dogs—is as clear as a whistle and entertaining in all its parts. Everything moves rapidly. There is not a dull moment. On various occasions I have hesitated to recommend a show for the coming matinee and evening for fear the suspicion of pecuniary collusion between the managers and myself get abroad and damage my reputation for veracity. This is one of the instances in which it behooves me to say in all sincerity. Go and see it."

It is safe to say that no minstrel party ever succeed in giving a more enjoyable performance than Beach & Bowers, who through real merit have gained a national reputation. Their specialties are always new and clean and amusing to all.

See Jolly "Hans Hanson."

The latest candidate for our sufferance is the Swede dialect comedy "Hans Hanson," which will be seen for the first time at the Myers Grand opera house this evening. The well known and always popular comedian, James T. McAlpin and a splendid company of dramatic and vaudeville stars will appear.

The play is said to be a mixture of farce comedy and melo-drama, strictly up-to-date, with many pleasing vaudeville specialties in reduced. One of the leading novelties of the season will be seen in this play, being the famous "Casa Reale d'Italia," being a band of Roman girls aged from five to twelve years, who play brass beautifully.

This band of artists gave an open air concert on the streets today and discoursed sweet strains of music that was greatly enjoyed by all. The prices of admission this evening is 25, 35 and 50 cents.

"T & T," the new brand of coffee introduced by the Thomson & Taylor Spice Co. is in perfect keeping with the reputation of the firm—the best.

EXCITING SESSION OF THE COUNCIL

CITY DADS HELD A WARM
MEETING LAST NIGHT.

An Amendment Was Made to the Opera House License, Making the Same \$50 a Year—Steps Taken In Behalf of the Poor of the City.

A regular meeting of the common council was held at the council chamber last evening. Mayor Thoroughgood in the chair and all members present.

The minutes of the last meeting were read and approved.

After a sharp debate a license fee of \$150 was imposed on the opera house, Aldermen Fifield and Gilkey voting no.

The council at first refused to give a hearing to Attorney Mout, representing Mr. Myers, but finally listened to his argument.

Alderman Kothman called for a report on frozen hydrants and Chief Spencer said the engine was being kept in service because the last cold snap had frozen several hydrants in the business part of the city.

An ordinance was passed limiting the speed of street cars to ten miles an hour.

By vote of the council certain C. & N. W. lots were stricken from the tax roll.

An ordinance was adopted requiring barber shops to be closed on Sunday.

A sidewalk ordinance was read calling for brick, stone, concrete, cement, tile or asphaltum sidewalks on down town portions of Main, Milwaukee and River streets and for two inch pine plank on 2 by four oak or pine stringers on other streets.

Aldermen Fifield and Gilkey declared 1-inch boards to be satisfactory for sidewalks, and the ordinance was laid over.

A resolution opening Almond street from Main street to Rock river, was adopted.

An ordinance was adopted putting in force a portion of the uniform charter. The council ordered that a committee of three be named to consider taking the relief of Janesville poor out of the hands of the county poormaster and placing poor funds in the hands of the council.

The Greenland Walrus

"As those who have been so fortunate—or unfortunate as the case may be—as to come in personal contact with the walrus will attest, the chase of no other arctic animal is productive of more thrilling excitement than that which usually attends the pursuit of that animal. Indeed, in point of reckless courage and ferocity, even the grim ice-bear, lord of the frost realm though he be, must surrender the palm to a wounded shik.

It should be born in mind, however, that I prefer particularly to the Greenland walrus, and not to his amiable Alaskan cousin, whose motto when he is attacked, seems to be 'Suave qui peit.'—Outing for March.

ILLNESS OF CZAR OF RUSSIA.

Persistent Rumors That Condition of His Health Is Bad Denied.

London, Feb. 28.—Rumors of the czar's illness are appearing in many places, but they are everywhere met

EMPEROR NICHOLAS.

with prompt official denials. Much excitement was caused on the Paris bourse by the reports.

A correspondent says that his majesty's chief anxiety of late has been the condition of the czarina, who is expected to be confined. It is mainly for this reason that he at present does not sign personally all state documents.

It is quite possible that the reports might be traced to certain exalted persons in St. Petersburg, whose plans would be materially disarranged should the czarina give birth to a son.

BOTH AWAIT FACTS.

United States and Germany Take No Steps in the Samoan Affair.

Washington, Feb. 28.—The statement may be repeated that up to this moment there has been no demand nor request from either our own government or that of Germany for the recall of any of the officials at Apia who have been involved in the recent turmoil there. The state of the case is exactly unchanged, each side has intimated to the other that it regarded the officials of the other as at the bottom of the trouble. Both governments are awaiting fuller reports from Apia.

It May Have Been Dynamite.

Hartford City, Ind., Feb. 28.—The coroner's inquiry has been in progress ever since the explosion in the Mason, Dick & Mason block, which killed four persons and injured eight others. A sensation was created here Monday by the report that the building had been blown up by dynamite instead of natural gas. Two of the rooms were occupied by saloons and on the second floor were a number of gambling rooms.

Automatic Couplings Needed.

London, Feb. 28.—The president of the board of trade, C. T. Ritchie, in introducing the automatic couplings bill in the house of commons, said the object of the measure was "to follow the example set by our cousins in the United States." The bill gives the board of trade power, five years hence, to compel British railroads to supply the whole of their rolling stock with automatic couplings.

Miners Threaten to Strike.

Little Rock, Ark., Feb. 28.—The Western Coal Mining company posted an ultimatum Monday, refusing to grant the demands made by the miners, and, this being the last day fixed by the miners for the operators to sign the proposed schedule, it is a settled fact that a general strike will be declared in all mines in Western Arkansas and Indian territory, affecting about 10,000 men and meaning a loss of \$25,000 daily.

Brazil Moves on the French.

Kingston, Jamaica, Feb. 28.—Further advices from Cayenne, capital of French Guiana, say that additional French troops have been dispatched to Countant, because the governor received information that a strong body of Brazilians was proceeding up the river. It is presumed the French troops went to meet them.

How is Your Grip?

Not getting along as well as you expected? That is the way grip acts when it is not taken in hand and driven out of the system at once. The poisons left by the grip germs keep right on destroying the vitality and undermining the health. You lose your appetite for food and what little you eat seems to do no good. Your nerves are unstrung, you become weak and exhausted and finally you are overpowered by some chronic disorder which takes you to an untimely grave.

Why should you let the grip run until it gets such a hold on you when a few bottles of Dr. Miles' Nerve would fix you up all right? It is the greatest nerve medicine and health restorer ever known and thousands of grip's victims are finding in it a safe and sure means of regaining lost strength and vitality.

"I found myself with a very weak stomach, and every time I tried to eat I would become nauseated, sometimes belching wind and frequently finding relief only after vomiting. My nerves became affected and I was almost blind for several months. Finally I began using Dr. Miles' Nerve, and when I had used one bottle I was greatly improved. After taking two more bottles my stomach trouble was entirely gone and I have had no return of the symptoms in over three years." Mrs. L. W. Winters, Gwynnville, Ind.

A trial package of Dr. Miles' favorite treatment for La Grippe, consisting of Dr. Miles' Restorative Nerve, Dr. Miles' Anti-Pain Pills and Dr. Miles' Nerve and Liver Pills, will be sent absolutely free of cost to any person sending name and address on a postal card, requesting the samples, and mentioning the name of this paper address.

Berlin, Feb. 28.—According to an official dispatch from Peking, several Germans were grossly insulted and afterward assaulted last Saturday at Tien-Tsin, the port of Peking. They had great difficulty in escaping from their assailants.

Wisconsin Legislature.

Madison, Wis., Feb. 28.—Both the senate and assembly had a large number of bills on the calendar last night, and this promises to be the busiest week of the session. No business of importance was transacted Monday.

Big Combine in Buffalo.

Buffalo, Feb. 28.—The Commercial says that a stupendous business deal is nearly completed involving \$25,000,000 of capital. It is the sale of the entire street railroad system of Buffalo and a number of suburban lines.

As the season of the year when pneumonia, la grippe, sore throat, coughs, colds, catarrh, bronchitis and lung troubles are to be guarded against, nothing "is a fine substitute," will "answer the purpose," or is "just as good" as One Minute Cough Cure. That is the one infallible remedy for all lung, throat or bronchial troubles. Insist vigorously upon having it if "something else" is offered you. The People's Drug Co.

Floods Threaten the Town.

Ottawa, Ill., Feb. 28.—The waters of the Fox and the Illinois rivers have risen to such a height during the past twenty-four hours that the people of this city have become alarmed over the situation. The ice in both rivers, which averaged thirty inches in thickness, has broken, and in the Illinois river two miles west of the city an ice gorge fully thirty feet in height has formed, causing the water to back and overflow property adjoining the two rivers. Unless this gorge is broken in a few hours the damage to property will run up into the thousands.

Iowa May Take Oregon's Place.

San Francisco, Cal., Feb. 28.—It has been frequently stated during the last few days that the battleship Iowa, now in this harbor, will be dispatched to the Philippines. According to advices from Honolulu the Oregon is in need of extensive repairs and will have to remain at Honolulu for several weeks. The Iowa is also in need of many repairs, but could proceed to Manila on short notice.

Before the discovery of One Minute Cough Cure, ministers were greatly disturbed by coughing congregations. No excuse for it now. People's Drug Co.

REFORM MEASURE PASSED.

The Bill for County Councils Goes Through the Indiana House.

Indianapolis, Feb. 28.—The lower branch of the legislature Monday passed the senate bill for the establishment of county councils. There were 52 votes for the bill and 45 against it. Mull and Titus, democrats, voted for it, and the following republicans bolted the caucus and voted against it: Dilley, Durham, Hall, Knotts, Marshall, Miller, Reese, Resch, Schrader.

The bill was slightly amended in the house, but the senate, it is said, will readily concur in the amendments. By the passage of the bill for the establishment of township advisory boards and this bill for county councils, the system of county and township government is completely changed. Township trustees and county commissioners are shorn of nearly all the authority they have heretofore had.

The senate passed the house bill to authorize the attorney-general to bring injunctions in the name of the state without bond. This is the bill under which the state authorities hope to stop violations of the law in Lake County.

The house tried in vain to reconsider the vote by which it passed a bill last Friday to legalize pool-selling. It was held by the speaker that the motion to reconsider had not been filed in time. The senate, it is believed, will kill the bill.

No Business Transacted.

Springfield, Ill., Feb. 28.—There was not a quorum present in the senate when President Pro Tem. Warder called that body to order Monday, and no business was attempted. Immediately after the reading of the journal an adjournment was taken to 10 o'clock this morning.

The house met at 5 o'clock, Mr. Rankin presiding. Adjournment until today was taken immediately after the reading of the journal.

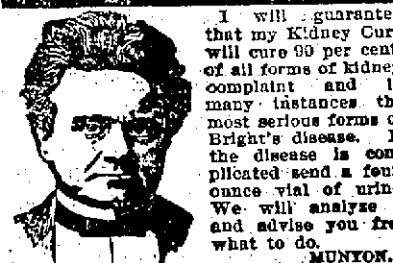

Cotton Mills Raise Wages.

Fall River, Mass., Feb. 28.—The conference of the representative of the cotton manufacturers and the labor unions resulted in the manufacturers agreeing to advance wages on April 3 at the rate of 12½ per cent. This decision carries with it joyful tidings, not only to the 30,000 mill operatives of this city, but to 125,000 more of their fellow-workers throughout New England.

Declares German Story Absurd.

London, Feb. 28.—The Berlin correspondent of the Times, emphasizing what he calls "the absurdity of most of the stories regarding friction between the Germans and Americans at Manila," says: "The German cruiser Irene left the Philippines over a fortnight ago and is now on the way from Hongkong to Amoy. As for Vice-Admiral von Diederichs, he left the Philippines months ago."

THE PEOPLE'S POET

FRANK L. STANTON'S LATEST
BOOK OF LYRIC POETRY."Come One with a Song"—Verses That
Charm with Their Music and Win the
Heart with Their Gentle Humanity—
A Son of the Southland.

Spontaneity, freshness, music, are the qualities that make Frank L. Stanton's poems charming and popular. They are so sweetly optimistic, too; and, after all, it is the smile and not the growl that saves and blesses the world and that lives. Roses with the dew on them, the laughter of children, the song of the birds that haunt his native woodlands, home, love, patriotism—these are his themes. Frank L. Stanton has been in the public heart and eye for years now, generally as the author of bits of verse contributed to the Atlanta Constitution. These were always widely copied, and, unlike most fugitive poems, were read by the public. There are probably more of Stanton's verses in the scrap-books of the country than of any other writer, with the exception, perhaps, of Riley. But although he began as a newspaper poet, pure and simple, and still continues to turn most of his effusions in to the journal that employs him, Stanton's reputation has far outgrown his own

FRANK STANTON. His verse is now modest pretensions. His verse is now sought by the best periodicals, and he is greatly admired in England, where his name is nearly as well known as in this country. The popular weekly To-Day, conducted by Jerome K. Jerome, makes a special feature of Mr. Stanton's verse, which it frequently reprints with beautiful illustrations.

If one were asked the reasons for Stanton's popularity, the correct answer would doubtless be, his optimism and his spontaneity. Any man can be popular who can touch the hearts of his audience; some authors arrive at the desired end by making profound studies of human nature, others by instinct and by voicing feelings which they have in common with the rest of humanity. The latter class are in no danger of writing above or below the hearts of their readers. Frank L. Stanton sings as easily as a thrush and with the rippling lilt of a brook flowing through a meadow. His latest book is entitled "Come One with a Song"—no one but a poet could have given a book such a name!—and has been made with befitting care and taste by the Bowen-Merrill company. Stanton's whole philosophy and impulse of his singing are to be found in the tender little song which we quote:

Come, said Love upon a day;
Come and fare my rosy way;
If perchance the thorns we meet
They shall make the roses sweet.

So with Love I passed along;
All the world was sweet with song;
Never there was mine, for he
hid them in his heart from me.

In the realm of negro dialect Stanton is sometimes imitatable. When one reads the hodgepodge that is so often written to order in this line by yankee bards for our great magazines one becomes more than ever convinced that all this sort of thing should be left to our Southern writers. The lullaby herewith quoted is perfect in its way. It has the right swing—that of the cradle—combined with pathos and sweetness. Even Paul Lawrence Dunbar will be envious when he reads it:

Sich a li'l feller, en he settin' up so wise!
Say he like his daddy, but he got his mammy's eyes;
Angel tuck en drap him fum a winder in de skies—
By-bye, honey, twell de mawnin'.

Sich a li'l feller, in de cunnin'es' er cloze!
Say he love his daddy, but his mammy's what he knows!
Foun' him in de springtime, en dey tuck him fer a rose—
By-bye, honey, twell de mawnin'.

Sich a li'l feller, en he talkin' like a man!
By-bye, by-bye; kiss yo' li'l han';
Lots er li'l chillun in de sleepy lan'—
By-bye, honey, twell de mawnin'.

Need more be said? When the author's work pleads so sweetly and eloquently for itself, the reviewer's task is plain and easy.

President Faure's Daily Mail. It has been estimated that the average number of letters received daily by the president of the French republic amounts to 700, classified as follows: Begging letters, 250; petitions on political affairs, 150; petitions from criminals, 100; complaints against various functionaries, 100; anonymous letters, 80; threats of assassination, 20.

FOUND THE BEEF BAD.

Ninth Infantry Men Condemn the
Canned Article.

Washington, Feb. 28.—Much testimony was heard Monday by the army court of inquiry to the effect that canned roast beef was not favorably received by the troops in Cuba.

Nearly all the witnesses examined were enlisted men of the Ninth Infantry, now stationed at Madison Barracks, N. Y. The men one and all condemned the "canned beef" as not to their liking.

Quartermaster Sergeant M. C. Bruckage, also of the Ninth Infantry, testified that the men complained that the canned beef was stringy, dry, and that they could not eat it. They could not eat it any more after eating it once. They could not keep it on their stomachs. More of the roast beef was issued in Cuba than on the voyage. Some said they would rather go without anything to eat than eat it.

Sergeant White testified that canned roast beef was not satisfactory. He had tried to eat it on the voyage to Cuba, but the can opened by him was spoiled. It was not replaced.

Quartermaster Sergeant Francis Kidd of the Ninth Infantry testified that the refrigerated beef had to be destroyed. "It was green-colored and slimy," he said. One peculiar thing about the refrigerated beef, he explained, was that, while there were myriads of flies in Cuba, not one would alight on the beef. He looked for the beef to be flyblown in a country like Cuba, but not a piece, to his knowledge, was ever affected by the flies.

The Scientific Mother.

It is a baby's inalienable right to have what it wants, and a certain Washington mother—she is a physician, says the Post—seems to be ingenious enough to ward off a possible disappointment. The mother has scientific ideas about the bringing up of babies. One of those ideas is an outing every day, and the baby is so accustomed to her daily excursion that she makes her displeasure felt if she is deprived of it. Tuesday was rainy. Baby couldn't go out, and since Mohammed could not go to the mountain, the mountain was brought to Mohammed. All the windows were opened and baby was trundled back and forth, snugly wrapped in her little cloak. But the floor being perfectly smooth, baby knew she wasn't out of doors, and wept. The scientific mother pondered the matter. Then she took down certain volumes of her medical library and put them on the floor to represent curbstones, and smaller pamphlets to serve as general inequalities of the pavement. Baby's carriage was wheeled over the floor, and baby felt her accustomed jolts. She fancied herself outdoors and promptly went to sleep.
